LABCOLD PHARMACY UNDER-COUNTER REFRIGERATOR 150 LITRE

125-041

PRODUCT DESCRIPTION

Powered by the unique Intellicold controller, this professional 150 litre pharmacy refrigerator has been designed from the ground up for the safe storage of cold chain medicines

With superior temperature uniformity, low energy consumption and extra functions, this refrigerator is ideal for storing your sensitive pharmaceuticals in perfect conditions, helping busy professionals monitor regulations and requirements.

Labcold IntelliCold Pharmacy Refrigerator now with NEW touchscreen controller. Designed from the ground up for the safe storage of cold chain medicines as advised by Public Health England.

Featuring a 1 metre secondary temperature probe that can be placed anywhere inside the pharmacy fridge and a touchscreen controller which is completely flat so it can be thoroughly cleaned and disinfected. The controller displays alarms and records minimum and maximum temperatures for both temperature probes. It also records alarm states, fridge operation, door openings and temperature data for both probes at minute intervals.

You can only view and store this data on a computer by purchasing a specially encoded micro SD card. This data helps you with record keeping and regulatory inspections. Plus, if you have any issues, you can establish the exact duration and severity. You can find these in the related products below
