BURTONS

ASKIR SUCTION UNIT & ACCESSORIES

129-600-ACCESSORIES

PRODUCT DESCRIPTION

A compact high suction system ideal for the majority of veterinary applications including use with an endoscope

The unit is supplied with a 2-litre autoclavable collection jar which features a float valve to prevent overfilling. An anti-bacterial filter is fitted as standard and a 1.5-metre length of suction tubing is also supplied. The level of suction is controlled by a rotary valve and indicated by a pressure manometer. Suction ends sold separately. Disposable Suction End features a control port to limit suction. Place a finger over the port to increase suction.
