

BURTONS LARGE ANIMAL VENTILATOR

102-502

PRODUCT DESCRIPTION

A compact and robust anaesthesia system specifically designed for large animals

The complete large animal anaesthesia system is equipped with the Equivent anaesthesia machine and the Equivent ventilator, all mounted to the Burtons large animal trolley, making the entire system easily moveable around the practice.

The Equivent anaesthetic machine is designed to be a low resistance circle breathing system with an easy to use, touch screen ventilator. Offering a gas supply pressure of 55-60psi and flow control range of 0-10 l/min

It is designed to provide controlled ventilation to an anaesthetised patient while connected to an appropriate large animal anaesthesia machine. The ventilator is electronically controlled and pneumatically powered on an adjustable timed cycle with respiration rates of 0->100 breaths/minute and tidal volumes up to 15 L/min.

This unit is sold mounted to a sturdy mobile base, which is constructed of heavy gauge, stainless steel, mounted on 5" brake castors. It is robust, well balanced and portable.

Key Features:

- Low resistance circle breathing system
- Ventilator - minute volume divider, simple to operate
- Latest technology touchscreen
- Optional monitor shelf and foal circuit
- Monitor shelf with storage for cables
- Y piece holder
