

VAPORTEC SEVOFLURANE VAPORISER

300-013-CONFIG*

PRODUCT DESCRIPTION

You are now able to buy sevoflurane key fill vaporisers from Burtons. Sevoflurane is an alternative to isoflurane, used as the standard maintenance vapour in human health. Although the active ingredient is more expensive and requires a different vaporiser, it is the best alternative to use during the current challenges and concerns.

We are working closely with Animalcare who are offering Sevotek at the best available price to enable you to continue operating and providing the best animal care. Other suppliers of sevoflurane may have a filler already attached to the bottle and therefore, **will not** fit our vaporisers.

The lead time for the vaporisers is currently just 3-4 weeks.
