

EXAMION CABLED DR XL UPGRADE PANEL

XR-EXDR000158-PROMO24

PRODUCT DESCRIPTION

Upgrading to DR has never been easier or more affordable with our Examion XL, Cabled, retrofit panel.

This DR detector panel captures the X-ray image and 'directly' transmits it to the PC through a cable within seconds. No need for a separate, bulky processing unit and the ability to instantly review the images reduces the need for retakes.

This 17" x 17" panel can be added to your existing bucky table or purchased alongside one. And with the small footprint PC included with the system, you can upgrade your entire X-ray system to DR by simply plugging it in.

The Lenovo PC is included as standard: Lenovo ThinkCentre PC - small footprint, big impact. The ThinkCentre is designed to save space while still being able to process everything you need. The powerful system boasts the AMD Ryzen 7 5750G processor with PRO technologies, delivering performance and manageability.

This package includes as standard:

- XL (17" x 17") DR Cabled Panel
- Panel charging cable
- Lenovo PC
- The following AQS modules already installed: X-ray, Control, Image optimisation, PACS vet for image storage, 1 x license for AQS.

This package currently includes promotional add-ons, including:

- Eizo EV2480 23.8" Monitor - This high-quality Eizo Monitor includes multiple connection ports, with four USB Type-A ports for easy connection to a keyboard, mouse, camera, or storage device. It also features a versatile stand for optimal positioning, including height adjustment, and tilt and swivel, allowing multiple viewing angles.
- Extra Send/store AQS module - enabling you to send images from your x-ray system directly to a third-party PACS system, such as your practice software for patient records.
- 5-year panel warranty
- 1st-year AQS software maintenance contract

Key Features:
