

WELCH ALLYN PANOPTIC OPHTHALMOSCOPE

WA118-2-BUNDLE*

PRODUCT DESCRIPTION

Expand your view

The Welch Allyn PanOptic Ophthalmoscope offers a brighter, wider view, and works on existing Welch Allyn 3.5 V power sources.

The PanOptic Ophthalmoscope addresses the fundamental challenge in ophthalmoscopy - to get a good view of the fundus in order to make a sufficient assessment. Patented Axial pointsource optics make it easy to enter undilated pupils, offering a 25 degree field of view, resulting in a view of the fundus that's 5X greater than you see with a standard ophthalmoscope in an undilated eye. Direct viewing of the fundus through the panoptic, provides better images of the retinal changes caused by hypertension, diabetic retinopathy, glaucoma, and papilledema to enable clinicians to make these diagnoses earlier.

Key Features

- 20X larger viewing area when compared to a standard or pocket ophthalmoscope
- Long-lasting LED illumination cuts down on need for lamp replacement
- Compatible with all Welch Allyn 3.5 V power handles and wall transformers
