

## ELECTRIC LO-LIFT TABLE WITH EXTENDED LEAD LINED TOP - CLEARANCE

125-151-E + 225-150-EL-CL

### PRODUCT DESCRIPTION

---

**With its smartly designed, heavy duty lift mechanism, this table top will go just 47cm from the floor, allowing patients to be easily placed on the table and safely lifted to optimum working height**

The lo-lift table series built by Burtons has been designed around the Vet, with ultra low minimum height, 3 pedal braking, electric battery option and high quality frame. This table is a staple of many veterinary clinics.

#### The frame

The key part of this table is the superbly engineered, powder coated fully welded steel frame. Offering you stability throughout the entire lo-lift range and huge load capacity of 100kg! Large, anti-static, heavy-duty wheels go on to ensure smooth, safe mobility around the practice.

#### Three pedal brake for optimum manoeuvrability

When the pedal is totally depressed, the wheels cannot be moved at all, when the pedal is up, one wheel is fixed straight making the table easy to steer, and when the pedal is in a horizontal position, all the wheels are free.

#### Extended Top -

Extended version of our flat top allowing additional patient / working space on the table. The perimeter of the top has tie down

points to secure the patient. Top Size: 137 X 60 cm

### Lead Lining

lead lined tops are A high quality stainless steel top with built in lead lining, an Ideal combination for X-ray procedures and Operations/ Examinations where space is at a premium in the practice.

### Don't forget to protect your top with a Burtons table mat...

We use a 2.5mm thick black matting made from a manmade material that is non-marking and has excellent chemical and abrasive resistance. Mats are provided with stainless steel securing clips for the two short ends, these help hold the mat in place on tables without a recess for the mat to lay in.

### Manufactured to last

We don't just supply it! It was designed and built by Burtons in the UK at our principle manufacturing facility in Maidstone, Kent Using the latest CNC's and laser manufacturing processes and high quality stainless steel materials this product has been engineered from the ground up to last!

### Key features

- Minimum height: 47cm
- Maximum height: 95cm
- Maximum load: 100Kg
- Lift : r Electric
- Battery: As standard with electric lift
- Controls: Hand controls (electric)
