

ANIGENE PROFESSIONAL SURFACE DISINFECTANT WIPES (96 WIPES)

500-725

PRODUCT DESCRIPTION

Multi-surface disinfectant wipes that are biodegradable, tested to veterinary standards on key veterinary equipment

Byotrol ANIGENE professional surface disinfectant wipes are suitable for cleaning endoscopes, examination tables, weighing scales, monitor accessories, VDU Screens, crates and enclosures, tabletops and other essential equipment in your practice.

The disinfectant wipes do not leave residue on equipment with naturally quick drying, meaning there is no need to rinse areas after wiping. Each wipe is suitable for disinfecting 1m² surface area and begins working within sixty seconds.

The wipes are 100% Biodegradable after 3 months, made from a thicker, but softer plant-based substrate, reducing plastic waste without compromising on antimicrobial performance. The wipes are alcohol-free, chlorine-free and non-corrosive, making them compatible with a wide range of materials and surfaces.

Having undergone European PT3 test standards for microbiological testing, these wipes are effective against bacteria, yeasts, viruses, and fungi. Proper protection for your team and the animals in your care from pathogens, supported by robust data that meets veterinary protocols. Here is a full list of the microbiological pathogens that the wipes have tested successfully against:

- Lungworm
- Ringworm
- Brucella canis
- Feline Immunodeficiency Virus
- Coronaviruses
- Avian influenza
- Pseudomonas aeruginosa
- E-Coli
- Salmonella typhimurium
- MRSE, MRSP
- Enterococcus hirae
- Staphylococcus aureus
- Proteus hauseri
